Business and Site Systems: SAP Fiori, SuccessFactors and HANA user support; Zetalent, eZee Optimus POS; IP-PBX, CCTV/NVR and FingerTec/ZKTeco biometrics

PROFESSIONAL EXPERIENCE

IT Technician - End User & IT Infrastructure Support

Amwaj Group of Companies, Qatar | Jan 2023 - Present

- Provide L1/L2 support to 200+ users across departments and locations; diagnose hardware, software, network and application incidents, prioritize requests and coordinate escalations.
- Support Windows endpoints, Microsoft 365 and user access; deploy operating systems using PXE, USB and SCCM, and troubleshoot printers, scanners and peripheral devices.
- Configure Cisco switches, VLANs, DHCP relay, STP, VTP and ACLs; troubleshoot LAN connectivity and deploy cloud-managed Meraki, Grandstream and Ruijie access points.
- Provide first-level SAP Fiori, SuccessFactors and HANA assistance, including access issues; support POS, HR applications, biometrics, CCTV and IP telephony.
- Maintain asset records and technical documentation; coordinate vendors and ISPs for installations, troubleshooting, testing and service readiness.

Selected Projects

- Migrated 200+ endpoints from Symantec to Cortex XDR and led Windows/SSD upgrades across 200+ desktops and laptops.
- Supported migration of 200+ users from Microsoft 365 to Google Workspace while maintaining continuity of access.
- Led IP telephony relocation from Mesaieed Camp to Al Wukair offices, coordinating IP-PBX connectivity and commissioning phones across multiple buildings.
- Delivered Grandstream Wi-Fi deployments, including cabling, termination, SSID configuration, access controls and connectivity testing.

Hardware Technician | Amwaj Catering Services Company Limited, Qatar | Mar 2014 - Mar 2017

Diagnosed and repaired desktops, laptops and peripherals; installed operating systems and supported hardware maintenance.
