PROFESSIONAL SUMMARY

Results-driven IT Support & Network Engineer with 10+ years of progressive experience in enterprise technical support, network infrastructure, and systems administration. Proven expertise in Cisco networking (CCNA certified), VLAN configuration, switch management, wireless infrastructure, and enterprise-level troubleshooting across Windows, Linux, and macOS environments. Strong record of achieving 95%+ first-call resolution rates, reducing ticket reopen rates, and maintaining 99%+ system uptime. Skilled in supporting 300+ user environments, optimizing IT operations, and delivering reliable infrastructure solutions.

KEY ACHIEVEMENTS

- ✓ Achieved 95% first-call resolution rate and maintained 4.8/5 user satisfaction rating at AMWAJ Group
- ✓ Reduced average hardware repair turnaround time by 40% through process improvements
- ✓ Successfully configured and managed enterprise network infrastructure including VLANs, DHCP, ACLs, and STP
- ✓ Managed IT support operations for 300+ users across multiple departments

CORE COMPETENCIES

Network Infrastructure

Cisco Switches & Routers, VLAN, DHCP, STP, ACLs, Wireless APs

Security & Monitoring

CCTV (NVR/DVR/IP), Biometric Systems, FortiGate / Palo Alto Firewalls, Access Control

Systems Administration

Windows Server, Active Directory, Group Policy, SCCM, PXE Boot

Enterprise Software

Microsoft 365, SAP, Google Workspace, Freshservice, Zetalent, CMS, CMMS, Fleet Management, ERP.

Operating Systems

Windows (7/8/10/11), Linux/Ubuntu, MacOS, iOS, Android

Virtualization

VMware Workstation, Hyper-V, Remote Desktop Services

PROFESSIONAL EXPERIENCE

IT Technician | AMWAJ Group of Companies

Qatar | January 2023 - Present

- Configured and managed enterprise switching infrastructure, including VLAN segmentation, DHCP relay, STP, VTP domain administration, and ACL enforcement to support secure and efficient network performance
- Managed the configuration, deployment, and performance monitoring of wireless Access Points through cloud-based platforms such as GrandStream, Cisco Meraki, and Ruijie Reyee.
- Provided advanced technical support for 200+ users across hardware, software, operating systems and peripherals
- Deployed operating systems using PXE boot, USB, and Microsoft Configuration Manager across corporate endpoints
- Installed, configured, and monitored CCTV systems including NVR/DVR and IP-based cameras
- Installed, configured, maintained, and troubleshot network printers, scanners, and multifunction photocopiers, resolving hardware, driver, connectivity, and print service issues across the organization.
- Managed incident and service request queues ensuring SLA compliance and reducing ticket reopen rates
- Configured and troubleshoot IP telephony devices and maintained seamless voice communication across departments
- Provide first-level SAP system support and conducted staff training for smooth system adoption
- Maintained IT asset inventory records ensuring accuracy in hardware tracking and lifecycle management
- Handled biometric registration, configuration and time attendance reporting

IT Helpdesk Specialist | NCC Group Limited

Abu Dhabi, UAE | June 2017 - May 2022

- Provided first-level technical support for 300+ users across multiple departments achieving 95% first-call resolution
- Managed user account creation, modification, and access permissions in Active Directory
- Installed and configured workstations, peripherals, and enterprise software applications
- Troubleshooted and resolved hardware, software, and network connectivity issues
- Maintained IT inventory and tracked equipment lifecycle
- Created technical documentation and user guides for common procedures

Hardware Technician | AMWAJ Catering Services Company Limited

Qatar | March 2014 - March 2017

- Diagnosed and repaired hardware issues for desktop computers, laptops, and peripherals
- Installed and updated operating systems and software applications
- Performed preventive maintenance on computer systems and equipment
- Assembled and configured new computer systems according to specifications
- Reduced average repair turnaround time by 40% through process improvements
- Managed inventory of hardware components and replacement parts

MAJOR PROJECTS / IMPLEMENTATIONS

- **Enterprise Security Migration:** Executed large-scale migration of endpoint protection from Symantec to Palo Alto Cortex XDR across 200+ desktops and laptops, strengthening threat detection, response capability, and centralized security visibility
- **Enterprise Endpoint Hardware Refresh:** Led a major Windows OS and SSD upgrade project across 200+ corporate desktops and laptops, significantly improving boot times, endpoint performance, and device reliability
- **Enterprise Email Migration:** Led a major email platform migration from **Microsoft 365 to Google Workspace (Gmail)** across 200+ users, ensuring secure mailbox transfer, minimal downtime, user access continuity, and smooth staff adoption across the organization
- **Enterprise VLAN Segmentation Project:** Designed and implemented VLAN segmentation across multiple departments to improve network security, broadcast control, and performance
- **Wireless Infrastructure Rollout:** Deployed and optimized cloud-managed wireless AP solutions using Cisco Meraki, GrandStream, and Ruijie Reyee for seamless office-wide coverage
- **CCTV Security Deployment:** Installed and integrated enterprise CCTV infrastructure with NVR/DVR and IP cameras to strengthen physical security monitoring
- **Endpoint Deployment Automation:** Streamlined OS deployment using PXE boot and SCCM, reducing device setup time for new users and replacements
- **Active Directory & User Access Administration:** Standardized onboarding/offboarding workflows, access permissions, and Group Policy management for improved compliance

CERTIFICATIONS

- **Cisco Certified Network Associate (CCNA)** - Berkeley Training & Educational Consultancy
- **Palo Alto Networks Cybersecurity foundations** - Meeza Academy (2026)
- **AI Infrastructure to Apps** – Huawei / Meeza Academy (2026)
- **CompTIA Network+** - LinkedIn (2022)
- **CS50 Certificate in Computer Science** – HarvardX (2023)
- **Technical Support Fundamentals** - Coursera (2022)
- **Windows 11 for IT Support: Troubleshooting Basics** - LinkedIn (2023)
- **Diploma in Computer Networking**- Alison (2021)

EDUCATION

Bachelor of Science in Information Technology

Jomo Kenyatta University of Agriculture and Technology (JKUAT) | 2012
